

A close-up photograph of an olive branch on the left side of the frame. The branch is covered with small, elongated leaves and clusters of olives. Some olives are green, while others are a deep purple, indicating they are ripe. The background is a soft, out-of-focus sunset or sunrise scene with warm orange and yellow light filtering through the trees. On the right side, there is a large, dark green, semi-circular graphic element that serves as a background for the text.

Mme P58 ans

Mme P

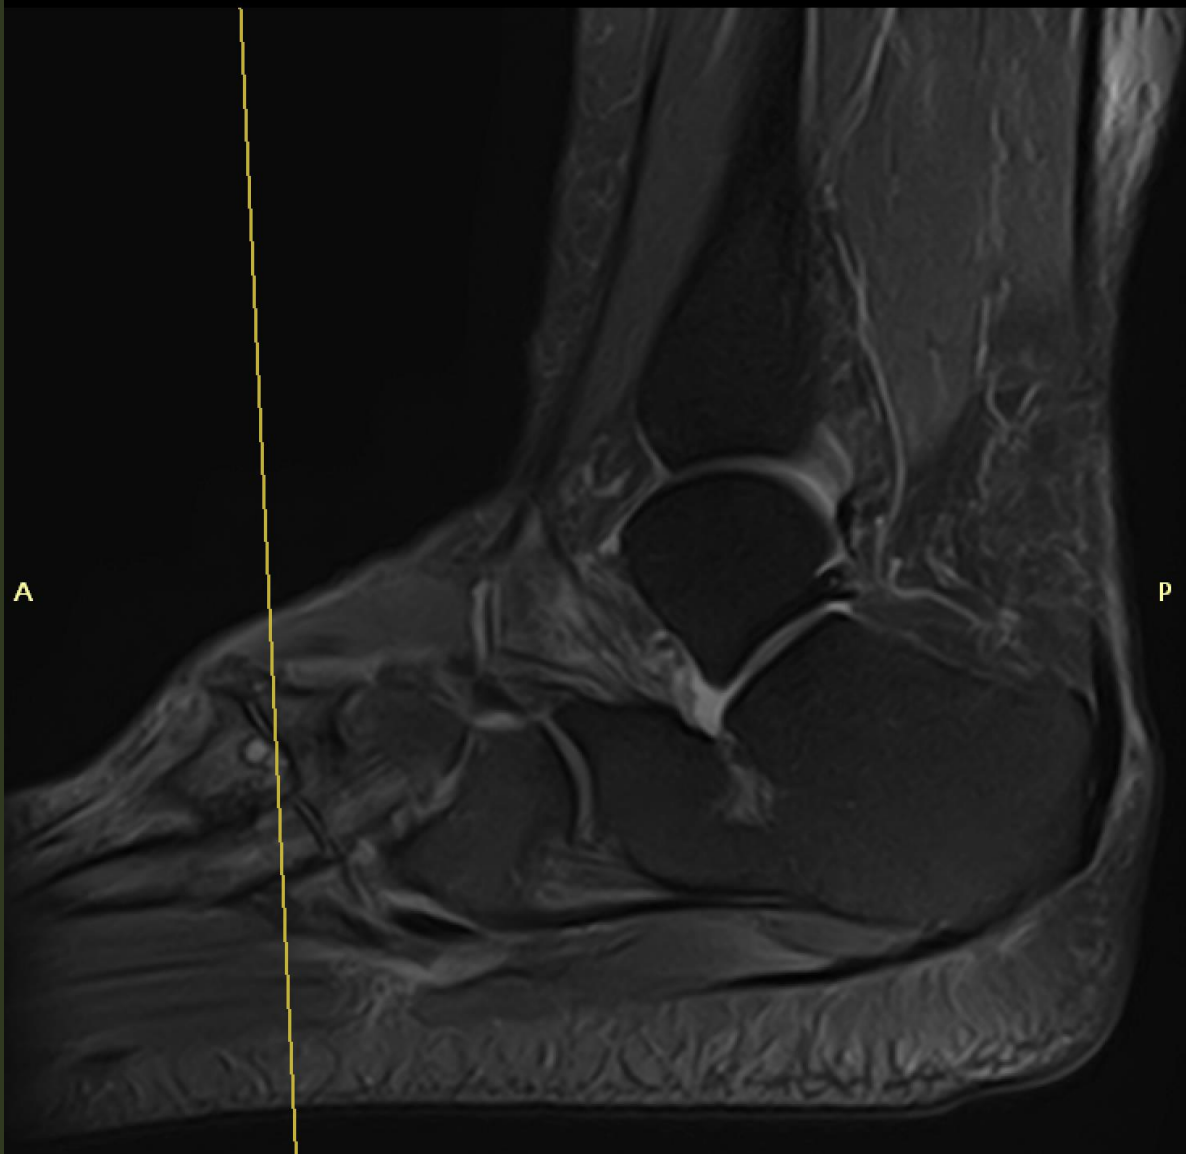

- Sarcoidose 2014 avec lofgren et corticothérapie 2ans
- Par la suite atteinte oligoarticulaire chevilles, invalidante

Mme P

- AINS, corticoïdes....
- Métho. Jusqu'à 20 mg/sem
- Anti tnf ??
